Supporting Technology and Innovation

SPECIAL PROJECTS

MONROE COUNTY SHERIFF'S FOUNDATION

Donations to the MCSF support Monroe County Sheriff's Office special projects such as technology that is both critical to officer safety as well as investigating threats of mass violence and complex crimes. One such project is using drones as first responders. The technology brings benefits to include faster response time, increased officer safety, reduced strain on resources, enhanced coordination between operation center and first responders in the field, and use as a potential de-escalation tool through live feed. Please stay tuned and follow us on social media for the latest updates on this exciting project and others.
